

TOP TIPS FOR USING FIVERR

TIP 1: CHECK OUT THE RECOMMENDED TAB

This is where you'll find the Fiverr Beasts offering services with good ratings and older more established services.

TIP 2: VISIT THE SELLER'S PROFILE

Here you can read feedback from previous buyers and review ratings. A rating of 95 - 100 is good to go. Always check out the low ratings, it's not always the seller's fault.

TIP 3: READ THE DESCRIPTION CAREFULLY

Review the gig instructions carefully before buying. All services start at the \$5.50 mark, but often to get this faster or higher quality, you have to pay more.

TIP 4: CHECK THE SAMPLES

The samples give you the best indicator of the work you're going to get. And the style of the work. If you're working with an illustrator whose samples are all in pretty watercolours, don't be disappointed when your illustration doesn't come back in Manga cartoon style.

TIP 5: PROVIDE CLEAN INSTRUCTIONS

Remember that many people on Fiverr have English as a second language, so give clear, concise instructions in plain English.

TIP 6: SET YOUR EXPECTATIONS

Remember that you are paying less than a price of a large coffee for the service. Don't expect too much and you're unlikely to be disappointed.

TIP 7: BE CAREFUL WHO YOU TRUST

Don't give out your passwords to strangers on Fiverr. This is especially important if you're getting someone on Fiverr to act as your WordPress developer or Virtual Assistant.

TIP 8: SHARE THE LOVE

If someone does a great job, feel free to tip them, or share their link and help them build their business.

THANKS FOR SHARING MY POST! YOU ROCK.
